

Sustainable Earth®

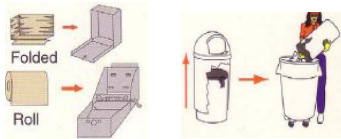

Restroom Cleaning Procedures

Dust Mop Floor

SE® 70 Washroom Tub & Tile Cleaner
Apply on sinks, urinals, toilets (including outside & base of toilet)

Refill tissue, towel & soap dispensers
as needed & empty trash

SE® 64 Neutral pH Cleaner
Spray & wipe glass, walls, partitions, etc.

SE® 70 Washroom Cleaner
Rinse and/or wipe off sinks, urinals, and toilets
(including outside & base of toilet)

SE® 66 Disinfectant
Spray and wipe a light film on all touchable
surfaces (handles, flushers, tissue, towel, soap
dispensers, door knobs, and sanitary napkin
receptacles, toilet seats)

SE® 64 Neutral pH Cleaner
Wet mop restroom floor. (Hydrogen peroxide
in SE® 64 will effectively clean and
deodorize surface)

SE® 66 Disinfectant is one of the most effective and safest disinfectants available. It is a “disinfectant only” developed to be sprayed onto a surface and let dry. It will not leave a film or residue when dry.

USE COLD WATER ONLY WITH ALL OF THESE PRODUCTS
